Brooklyn August 15th 1841.

Dear William,

257 I embrace the opportunity offered by Brother Wright who goes to the Millbury meeting to say a few words. Henry came upon us quite unexpectedly, the very sight of him was refreshing to us, for he is none the less loved by my dear Wife and children than by myself. I cannot be at the Millbury meeting as I must this week go to Providence, shall bring Sarah and Anna back with me for a visit. We are all favoured with good health excepting colds occasioned by the sudden changes of weather. Have you ever done any thing respecting that legacy left you by Rogers in trust for the cause? if not, and I can be of any assistance please inform me soon, something should be done by way of claiming it, as it will help our operations much.

I was more desirous of attending the meeting, for the purpose of seeing ~~Polly~~ Abby Kelley and urging upon her the importance of spending the remainder of her time between this and the annual meeting of the R.I. State Society, Second Wednesday in November. laboring to unite and stimulate our friends in that state to renewed exertion, and to counteract the

pernicious notions of Greene, Chace & Co respecting no-organ
Abby can also do much for the Standard & Liberator
and raise some funds.

Do write before long. I hope to see you before
many weeks, with the dear ones who reside
under your roof. Thine in Love

Geo. W. Benson

P.S. Please insert the notice on the other page in
